

DEVELOPMENT BOARDS
For Renesas's RX, V850 and 78K Families.

PROTOTYPING
Quick turn services for bare boards, printed circuit board assemblies.

AUTOMOTIVE ELECTRONICS
Our research and development effort is focused in after-marked solutions for converting passenger vehicles to alternative fuels for better future.

CABLE AND WIRE HARNESS ASSEMBLY
Providing completer cutting, stripping and testing of simple to complex wiring harnesses and cable assemblies controlled with crimp force analysers.

BULGARIAN EMS PARTNER

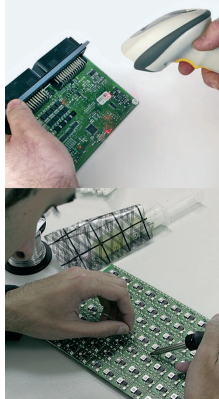

LOCATED in Plovdiv, Bulgaria - Vekatech Ltd. is a full electronic engineering, manufacturing service, and software development company.
SAVE money on Material, Labor and NPI costs by using our flexible services and concentrate your investment in your core competencies.

VEKATECH Ltd. enjoys a reputation for product quality, on - time delivery and competitive pricing in the development, circuit board assemblies and cable harnesses.
OUR aim is to achieve customer satisfaction and countinuous developing through excellence in EMS and value-added servises.

- Electronics consigned kits
We have developed a streamlined system for handling your parts, from the initial audit to the return of excess upon job completion.
- Materials and components procurement
Our supply chain is working with leading vendors both European and Asian. We suggest and you select our suppliers based on product quality, availability and pricing structure. Anytime you stay informed of our progress along the way.
- Traceability in house is 100% achieved by Automated, Bar Code Driven Transaction Process.
- Antistatic control.
- Prototyping and production manufacturing process development.
- Stencil design.
- Design for manufacturability and testability feedback.
- Low to high volume leaded and lead-free / rohs surface mount and through-hole pcb assembly conforming IPC-610 standard.
- AOI inspections, rework stations and statistical software.
- No Clean and Aqueous Water Wash Technologies.
- Conformal Coating of PCB Assemblies.
- Wiring Harnesses for a wide variety of products including automotive, medical and industrial conforming IPC-620 standard.
- Functional, Electrical and In-Circuit Testing.
- Custom Test & Assembly Fixtures creation.
- Mechanical Assembly.

ESTABLISHED:	August 2004
EMPLOYEES:	20+
QUALITY STANDARD:	ISO 9001:2000 in process
ANTISTATIC PROTECTION:	IPC 61340
TRACEABILITY	100%

EQUIPMENT

Label printers	3 x Zebra
PCB Barcode Printer	Eidos S410
Solder paste printing machine	DEK 248 Vision
Pick and place automat	Juki 2060L
Reflow soldering	Seho GoReflow 1.8
LIFO buffer	Asys PS 60
Unloaders:	2 x Simplimatic 8140
Conveyors:	5 x Nutek
Reflow oven and wave solder thermal profile management systems	V-M.O.L.E - 3 channels
Inspection microscope	3 x Vision Engineering
Benchtop rework station	IR rework
AOI inspection machine	2 x Marantz 22fxv-350
PCB Depanelizers	Cab Maestro 2m, Cab maestro 3m
PCB Washer	Winterhalter GS15
Ultrasonic cleaner:	Zenith 40/80 kHz
Ultrasonic Welding Machine	Branson 2000 IW+
Fully Automatic Crimping Machine	Komax Gamma 333 PC-B
Semi Automatic Crimping Machine	Komax AMP-5K/40
Hot Bar Soldering Machine	Unitex Precision Systems 9100
